MUHAMMAD ZAID KHAN

FRONT - END DEVELOPER
zaidbinasif468@gmail.com | +92 321 3809914 | Karachi, Pakistan

SUMMARY

Front-End Developer focused on building and deploying full-featured web applications using modern technologies. I leverage Firebase (Auth, Hosting, Firestore) for robust backend functionality and Tailwind CSS for efficient, responsive styling. My portfolio showcases my ability to transform concepts into functional products, with live examples including e-commerce platforms and interactive web applications. Seeking to apply my comprehensive development skills in a professional team environment.
